1. The following is an examiner's statement of reasons for allowance:

A) The terminal disclaimer filed on November 24, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patents 6,823,798 and 7,059,233 has been reviewed and is accepted. This overcomes all pending grounds of rejection. The terminal disclaimer has been recorded.

B) The prior art does not disclose or suggest a projectile including a tungsten component and metallic and non-metallic binder components as defined in instant claims 1 or 68.

C) The prior art does not disclose or suggest mixing a tungsten powder and the specific metallic and non-metallic binder components as defined in claim 38, placing the resulting composition in a die and compressing to a certain density range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
